

MASSEY UNIVERSITY
ACADEMY OF SPORT

Massey University

Massey University was named the first “Athlete Friendly University” by High Performance Sport New Zealand. No other university in New Zealand has the level of flexibility that Massey provides, a flexibility that is tailored to the life of a high-performance athlete. With a combination of on-campus, off-campus or mix-mode study options, and either full-time or part-time study, athletes can fit their study around their sporting commitments and change it to accommodate particular sporting events such as World Champs or Commonwealth/ Olympic Games. As a member of Massey’s Academy of Sport programme, you will receive key sport science services to assist in your athletic development. These include physical conditioning, sports nutrition and sports psychology.

Courses of Study

Massey is the only multi-campus university in New Zealand (Campuses in Albany, Palmerston North and Wellington), we have 36,000 students in total, including our distance learning students. Since we were founded more than 80 years ago, we have been breaking new ground in all our areas of expertise - business, creative art, health, science and humanities and social science. For a comprehensive look at why you should study at Massey look [here](#).

Scholarships Available for Athletes

The most specific scholarship for Athletes is Academy of Sport Scholarship, for more information follow this [link](#):

This Scholarship was established to support new student athletes enrolling at Massey University with a previous record of high achievement in sport and who show future potential in their chosen sport. The value of the Scholarship is a minimum of \$3,000 and up to \$5,000 for full-time students or pro-rated for part-time students, for one year.

Facilities Available to Athletes

Massey University offers a wide range of sporting facilities, events and activities for all students. We have some of the best sports facilities in New Zealand, including a world-class athletics track, the Sport & Rugby Institute, the Equestrian Centre, Indoor Cricket Centre and Recreation Centres. Information can be found [here](#).
